# Author Profile

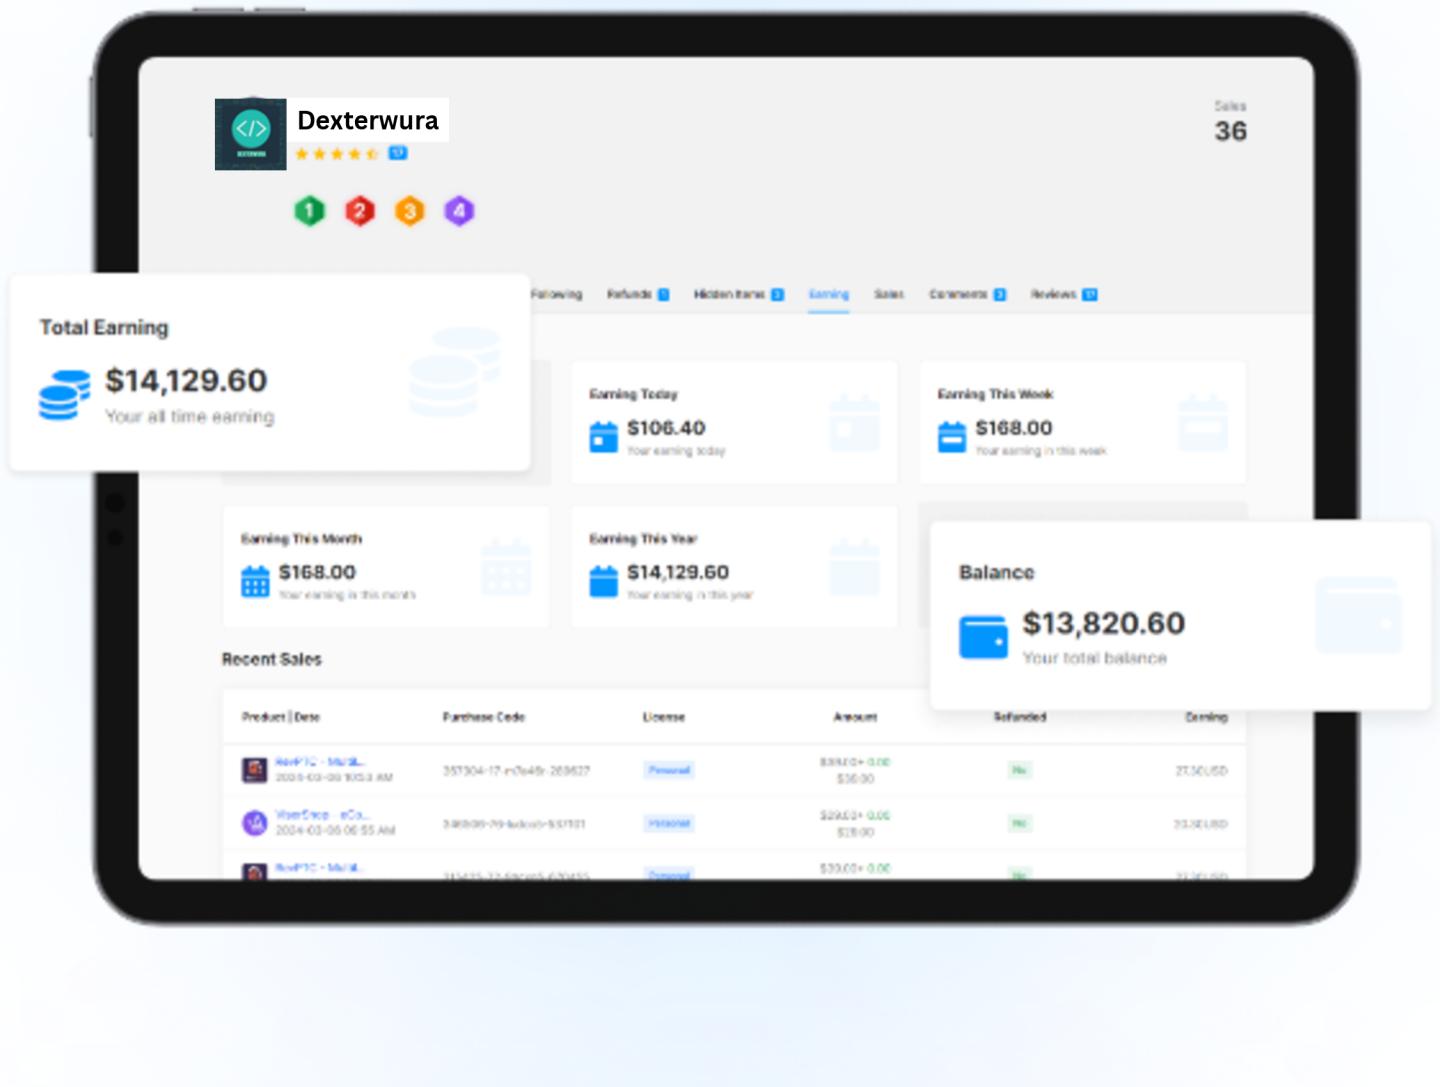

The screenshot shows a digital tablet displaying an author profile for 'Dexterwura'. The top navigation bar includes 'Dashboard', 'Profile' (which is active), 'Portfolio', 'Following', 'Referrals', 'Hidden Items', 'Licensing', 'Sales', and 'Comments'. A 'Sales' badge indicates 36 sales. Below the navigation is a user icon and the name 'Dexterwura' with a yellow 5-star rating. A progress bar shows completion levels from 1 to 4. The main content area features a large, abstract blue and white background image with the text 'DEXTERWURA' overlaid. To the right is a 'Upload an Item' section with a 'Upload Now' button. On the left, there's a 'Public Collections' section showing three items: 'Fintech', 'my collection', and 'Another Collection', each with a preview image. On the right, there's an 'Email ViserLab LLC' section with fields for 'From' (set to 'Dexterwura'), a message body, and a 'Send' button. Below that is a 'Social Profile' section with icons for LinkedIn, GitHub, Facebook, and YouTube.

## Product List Page

The screenshot shows a product list page with a search bar and filters on the left. The search bar includes fields for 'Search...', 'Min Price', 'Max Price', and a 'Search' button. Below it are dropdown menus for 'Category' (All Categories, PHP Scripts, WordPress, Flutter, HTML5, User Interface, JavaScript) and 'Rating' (All Rating, 1 star, 2 star, 3 star, 4 star, 5 star). The main content area displays a grid of nine product cards. Each card includes a thumbnail, the product name, the developer ('ViserLab LLC'), price, a 5-star rating, and a 'View Preview' button. The products listed are:

- RevPTC - Multi-Level Binary PTC Platform
- PPOLab - Pay Per Download Platform
- ICOLab - Initial Coin Offering Platform
- XCash - Non-Coincense Plugin With Payment API
- NewsLab - Online Newspaper And Magazine Platform
- JobLab - Job Portal Platform
- AppLab - Application Backend
- Vehicle Rental System
- Residential House Rent

# Earning Statistics

A lot of Information Systems students & Computer science students have a lot of system prototypes they have developed running in their local environments in their PCs. What if we just develop a marketplace where they can sell these systems and make money. SellIT is an innovative marketplace for selling systems, websites, code snippets as well as dissertation documents. Its simply a way for IT students to make money on campus. It will have sophisticated and secure APIs for copyrights.
